Mr. Brad Johnson
Division of Environmental Response and Remediation
168 North 1950 West 1st Floor
Salt Lake City, UT 84116

Dear Brad:

The Remedial Project Managers (RPMs) and Site Assessment Manager (SAM) for the following sites have reviewed the Third Quarter Progress Report for 1994 and have approved the comments:

Kennecott
Midvale Slag OU1 and OU2
PA/SI
Portland Cement Sites 2 & 3
Portland Cement Remedial Design
Richardson Flat
Rose Park
Sandy Smelter
Sharon Steel OU2 Remedial Action
Sharon Steel OU2 Remedial Design

Comments were given on the following sites:

Sharon Steel OU1 (Ostrander)

Fringe benefits category is in negative funding status.
Should adjust funding to balance account.

Petrochem/Ekotech (Desiree Campbell)

State has overspent the fringe OCC; their report notes they will request an OCC revision by letter. They do have enough dollars overall. Also, RPM notes that State has a surplus of travel dollars (\$12,375 remaining for this year).

Utah Power and Light/American Barrel (David Ostrander)

EPA does not formally approve the RD documents listed except for the Excavation Phase Work Plan. We have provided comments on these various documents.

Printed on Recycled Paper

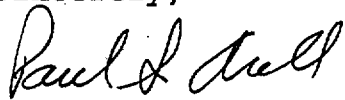

The RD/RA Health and Safety Plan will not be finalized or approved by EPA. This document applies to the PRP's on-site workers.

CORE Program (Armer)

#9--"How to Manage Time" is not Superfund-specific training and, therefore, should not be charged to Core.

If you have any site-specific questions, please contact the Remedial Project Manager or Site Assessment Manager for that site. Other questions may be directed to Linda Armer at (303) 293-1264.

Sincerely,

for Carol L. Campbell, Chief
Superfund Management Branch
